THE FACTS

➡ Honeywell is one of many corporations complicit in Israel's ongoing genocide (see [American Friends Service Committee](#) for full list) which has produced well over 70,000 Palestinian deaths since October 2023 (some sources report over 186,000) ([Ibsais 2026](#)).

Turn over

➡ Honeywell and many other public (and private) companies are aiding and abetting alleged war criminals Mr. Benjamin Netanyahu and Mr. Yoav Gallant both of whom are wanted by the the [International Criminal Court](#). Their alleged crimes include “[...] war crimes of starvation as a method of warfare and of intentionally directing an attack against the civilian population; and the crimes against humanity of murder, persecution, and other inhumane acts from at least 8 October 2023 until at least 20 May 2024” ([ICC 2024](#)).

➡ Honeywell produces high-tech components such as Inertial Measurement Units (IMUs) (see [American Friends Service Committee](#)) and Performance Thermal Management Systems and their controllers (see [Arms Embargo Now's](#) November 2025 report entitled, [Exposing the U.S. Loophole: How Canadian F-35 Parts and Explosives Reach Israel](#)), which makeup vital parts for Israel's genocidal operations in the Gaza Strip and beyond.

➡ According to [American Friends Service Committee](#), “While Honeywell's components typically leave no trace at the site of bombing, one Honeywell component was found intact following a June 6, 2024, Israeli airstrike on the UN al-Sardi school in Gaza. The attack killed 40 Palestinians, including 14 children, and wounded at least 74 others.”

➡ According to, [Arms Embargo Now's](#) November 2025 report entitled, [Exposing the U.S. Loophole: How Canadian F-35 Parts and Explosives Reach Israel](#), “Honeywell's Power and Thermal Management System (PTMS) is a foundational, enabling technology for the F-35 Lightning II.”
